Education

Charotar University of Science and Technology, CSPIT *Sept 2022 – May 2026*
B.Tech in Computer Engineering
CGPA: 8.62 / 10.00

Dholakiya Schools, Science Stream (11th–12th) *Jun 2020 – May 2022*
GSEB : 69.07% — GUJCET PR: 81.30

Work Experience

Web Development Intern [Git](#) [🔗](#) *May 2024 – Jun 2024*
Heliconia Solutions Pvt. Ltd.

- Built a robust e-Commerce platform using Django, integrating a secure payment system that processed more than 1,000 transactions per month, reducing payment failures by 30% and improving checkout speed.
- Designed a comprehensive test suite that covers user authentication and key product management workflows, achieving 95% code coverage and improving application reliability across the organization.

Projects

Employee Governance [Git](#) [🔗](#) *Jun 2024 – Oct 2024*

- Built an Employee Governance System using the Django REST framework (back-end) and React-JS (front-end), managing 1,000+ employee records efficiently.
- Implemented role-based authentication, reducing unauthorized access attempts by 95% and enhancing data security. Real-time updates were enabled, improving workflow efficiency by 50% through instant data synchronization.

Disaster Management Portal [Git](#) [🔗](#) *Oct 2024 – Feb 2025*

- Developed a Disaster Management Portal, ensuring a 100% responsive user interface on all devices. Integrated visualization of real-time data, improving disaster response time by 50%.
- Implemented an SOS alert system for instant emergency reporting and a one-click social media upload feature, enabling users to quickly share critical updates during disasters.

Job Recommendation System [Git](#) [🔗](#) *Dec 2025 – Apr 2025*

- Created a Job Recommendation System that suggests job postings from companies, including remote opportunities, based on the user profile and also has ATS score analysis and resume parsing.
- Integrated an ATS score checker to evaluate resume compatibility with job listings and provided actionable suggestions for improvement.

Skills

Languages: JavaScript, Typescript, HTML, CSS, C, C++, C#

Tools & Technologies: Git, GitHub, PostgreSQL

Frameworks & Libraries: React.js, TailwindCSS, Django, .NET Core

Achievements

MUJHackx1.0 Hackathon – Finalist
Constructed a full-stack project with ReactJS and Spring Boot and led front-end development.

MakerFest Vadodara
Selected among 550+ teams, presented an innovative solution, and received feedback from industry experts.

FinTech Hackathon (Breach2k25) – Winner
Designed an EV rental app as a solution to the provided problem statement.
